

SALT LAKE CITY, UT – West Jordan Office

LAND SURVEYOR to work on a broad range of public and private projects for transportation agencies, educational institutions, park authorities and local government agencies throughout the Western United States. PEC is looking to fill an RLS position in our Salt Lake City, UT office. The ideal individual would have a minimum of 5+ years land survey experience, with a preference given to candidates with prior field crew chief and/or office surveyor responsibilities for preparation of right-of-way surveys, and record plats. Responsibilities will include the preparation of record documents, easements, construction stakeouts sheets, as built surveys, ALTA surveys, topographical surveys and preparation of field survey packages. Previous experience with Microstation software a plus. RLS duties would include overseeing local land surveying operations, field and office management of survey crews. If registered in another state, the successful applicant will be required to become registered in Utah within one year of hire. PEC offers an excellent salary and an attractive benefit package. Please forward your confidential resume and salary requirements to: Survey Manager - Project Engineering Consultants, Ltd., 2310 W. Mission Lane, Phoenix, AZ 85021 or gary@pecutah.com. EOE.

CIVIL ENGINEER – Utah PE with 4-6 years experience in planning and design of highways, freeways, interchanges and all other associated items typical with transportation projects. Experience with AutoCAD and/or MicroStation a plus. Must enjoy the challenges of working on several projects at once and coordinating with local municipal agencies, utilities and clients. Qualified candidates should e-mail their resume to gary@pecutah.com. EOE.

CADD TECHNICIAN – 5 years of experience in the preparation of civil engineering plans. MicroStation and AutoCAD experience is essential. Qualified candidates should e-mail their resume to gary@pecutah.com. EOE.
